

Together we are building healthier communities.

With 21 health centers from the greater Glens Falls area to the Canadian border, Hudson Headwaters has the North Country covered. Through our extensive network, comprehensive services and affordable access, we make sure that care is within reach.

Hudson Headwaters is the sole medical provider in much of this rural, medically underserved region. In the Glens Falls area, Hudson Headwaters is the primary care "safety-net" provider.

Hudson Headwaters accepts everyone, regardless of ability to pay. Our patients are served in Hudson Headwaters' local health centers, in hospitals, nursing homes, work places, schools, and in their homes.

Each Hudson Headwaters Health Center has been recognized by the National Committee on Quality Assurance as meeting standards for being a Patient-Centered Medical Home. Hudson Headwaters is a Federally Qualified Health Center.

- Home-based case management initiatives

HEALTH CARE ROOTED IN THE COMMUNITY

- The Board of Directors is composed of people living in the towns served by Hudson Headwaters. These community leaders provide oversight and guidance for the entire system.
- In most of our Adirondack service area, our local towns work in collaboration with Hudson Headwaters to provide assured medical care.
- Advisory committees composed of the town supervisor, local residents and members of the Hudson Headwaters Board of Directors also provide guidance.
