

Membership in the AAFP affords you access to a wide variety of solutions and insights that are designed specifically with you in mind. You'll find high-quality, evidence-based CME and clinical guidelines that support your patient care, toolkits and content focused on health equity, and an array of resources for addressing administrative complexity. But there's so much more, including the addition of your voice in the AAFP's legislative efforts, leadership development opportunities, online and in-person networking, and, most of all, a community of peers that you can lean on. So, while you can't put a number on all the benefits of membership, you can put a value on many popular resources—and that number totals \$4,520.

Family Physician Payment and Administrative Simplification

Member Savings of More Than \$4,500

The AAFP is committed to:

Supporting Comprehensive Family Medicine Practices

The AAFP advocates for payment reform models that result in greater investment in family medicine, pushes for the adoption and implementation of advanced primary care functions, and ensures appropriate value of the comprehensive services you provide. We provide tools and resources to help educate primary care practice teams, and support for scope of practice and issues faced by employed physicians.

Reducing Administrative Complexity

The AAFP is committed to reducing point-of-care administrative functions that detract from your patient care activities. We actively advance reforms to reduce burden around EHR documentation, prior authorizations, and quality measurement to ensure administrative complexities have limited impact on the quality of care provided to patients.

Building a Diverse Workforce

The AAFP creates awareness around the importance of family medicine. By advocating for the expansion of graduate medical education and payment reform, the AAFP works to rebalance the composition and distribution of the physician workforce in the U.S. We support workforce growth that is inclusive and representative of those underrepresented in medicine.

Enhancing Clinical Expertise

The AAFP provides broad-scope, personalized learning through a variety of educational venues and formats to equip you with the knowledge and skills to provide high-quality, evidence-based care for your patients. We offer tools to help train family physicians to address health disparities as they impact individuals, families, and communities. Our clinical recommendations deliver evidence-based guidance about preventive care, diagnosis and assessment, and management of acute and chronic conditions.
